Developed by

Are you a **stakeholder in the construction sector** (company, operator, tradesman) who operates in an increasingly competitive industry?

Do you have your sights set on **increasing performance** at a time when your sector is becoming industrialised?

Do you need **more reliable deadlines** and **greater operational efficiency**?

Smart Construction Planner provides a **range of services** including:

- ➔ Dynamic site layout planning
- ➔ Material tracking
- ➔ Connection of construction machines
- ➔ Collaborative planning
- ➔ Prerequisite management

Based on Lean Construction methods, the Smart Construction Planner is **the solution for your operational management on the construction site**, interconnected in real time and focusing on:

- ➔ Logistics
- ➔ Quality
- ➔ Planning and scheduling.
